FIND OUT IF YOUR NAME WILL BE CANCELLED FROM THE STATE ROLLS

Did you know that tens of thousands of Michigan voters may have been placed on the state's "voter cancellation" list? It's true. In August 2006, Secretary of State Terri Lynn Land put 165,000 registered voters' names on the list based on mail marked as undeliverable. **This means your name may have been removed from Michigan's voting rolls after the November 2008 election and that you are NOT eligible to vote in any upcoming elections.**

Who's At Risk?

All Michigan voters. In particular, those individuals who did not vote in the recent presidential election or in the preceding federal primary election.
